

Cannot Access POS Files:

A. Open PC Minder

1. Click Product Mix tab

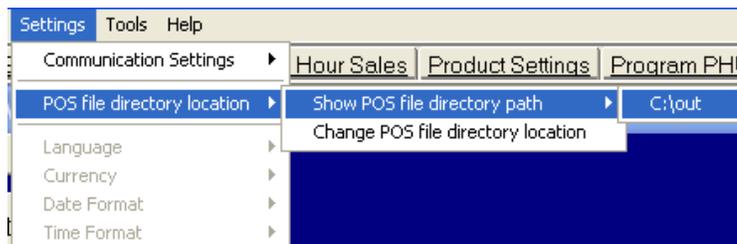

2. Click Forecast-Recall

3. Verify a list of days appear (if list of days do not appear immediately proceed to step B)
4. Choose the same day last week
5. Verify the POS file you choose opens properly

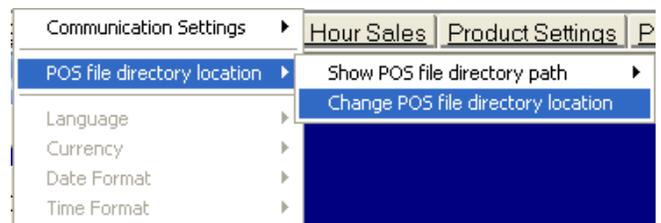

B. List of Days do not appear

1. Click on Settings, POS file directory—show POS file directory path
2. Verify it reads c:\out (if not proceed to C)

C. Change POS file directory location

1. Click on Settings,
3. Change POS file directory
4. Click on drop down and chose: c:\out
5. Click Save

Note if files (days) are still not showing; the data files are not being generated properly please call your POS vendor for support
